Wilton Manors, FL 33305

**Re: City of Wilton Manors Volunteer Firefighters' Retirement System
GASB No. 68 Disclosure Information for Reporting Year Ending September 30, 2017**

Dear Board Members:

As requested, we have prepared the actuarial disclosure information required under Governmental Accounting Standards Board (GASB) Statement Number 68 for the City of Wilton Manors Volunteer Firefighters' Retirement System for use in the preparation of the City's GAAP-basis employer financial statement for the reporting year ending September 30, 2017.

GASB Statement No. 68 establishes the accounting and financial reporting standards for state and local government employers who provide their employees (including former employees) pension benefits through a trust. These calculations have been made on a basis that is consistent with our understanding of this accounting standard. Enclosed are the following exhibits:

- Executive Summary
- Schedule of Changes in Net Pension Liability and Related Ratios for Measurement Year
- Notes to Net Pension Liability
- Pension Expense Under GASB No. 68
- Statement of Outflows and Inflows Arising from Current Reporting Period
- Statement of Outflows and Inflows Arising from Current and Prior Reporting Periods
- Summary of Remaining Deferred Outflows and Inflows of Resources
- Schedule of Contributions
- Notes to Schedule of Contributions
- Sensitivity of Net Pension Liability to the Single Discount Rate Assumption

The actuarial valuation of the liabilities was determined as of the beginning of the year, October 1, 2015 (based on the actuarial valuation results as reported in the October 1, 2015 actuarial valuation report dated June 2, 2016) and rolled forward to the September 30, 2016 measurement date. These liabilities are used for GASB Statement No. 68 reporting for the reporting period ending September 30, 2017. Using a measurement date of September 30, 2016 allows for timely reporting at the end of the year. If significant changes occur during the year, such as benefit changes or changes in assumptions or methods, these should be noted in the footnotes.

Required Disclosures

This information is intended to assist in preparation of the financial statements of the Plan. Financial statements are the responsibility of management, subject to the auditor's review. Please let us know if the auditor recommends any changes.

Our actuarial calculations for this report were prepared for the purpose of complying with the requirements of GASB Statement No. 68. These calculations have been made on a basis that is consistent with our understanding of this Statement.

The Net Pension Liability is not an appropriate measure for measuring the sufficiency of plan assets to cover the estimated cost of settling the employer's benefit obligation. The Net Pension Liability is not an appropriate measure for assessing the need for or amount of future employer contributions. A calculation of the plan's liability for purposes other than satisfying the requirements of GASB Statement No. 68 may produce significantly different results. This report may be provided to parties other than the City or Board only in its entirety and only with the permission of the City or Board. GRS is not responsible for unauthorized use of this report.

This report is based upon information, furnished to us by the Board, concerning Plan benefits, active members, deferred vested members, retirees and beneficiaries, and financial data. This information was checked for internal consistency, but it was not audited. We are not responsible for the accuracy or completeness of the information provided by the Plan Administrator.

This report complements the actuarial valuation report that was provided to the Board and should be considered in conjunction with that report. Please see the actuarial valuation report as of October 1, 2015 dated June 2, 2016 and the GASB No. 67 report dated February 15, 2017 for additional discussion of the nature of actuarial calculations and information related to participant data, economic and demographic assumptions, and benefit provisions.

The findings in this report are based on data through September 30, 2015 and financial information through September 30, 2016. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law.

To the best of our knowledge, the information contained with this report is accurate and fairly represents the actuarial position of the Plan. All calculations have been made in conformity with generally accepted actuarial principles and practices as well as with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

The signing actuaries are independent of the plan sponsor.

Theora Braccialarghe and Melissa Moskowitz are members of the American Academy of Actuaries (MAAA) and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Respectfully submitted,

EXECUTIVE SUMMARY
GASB Statement No. 68

Actuarial Valuation Date	October 1, 2015
Measurement Date of the Net Pension Liability	September 30, 2016
Employer's Fiscal Year Ending Date (Reporting Date)	September 30, 2017

Membership as of Actuarial Valuation Date

Number of	
- Retirees and Beneficiaries	5
- Inactive, Nonretired Members	4
- Active Members	1
- Total	10
Covered Payroll	\$ -

Net Pension Liability

Total Pension Liability	\$ 1,992,404
Plan Fiduciary Net Position	1,528,156
Net Pension Liability	\$ 464,248
Plan Fiduciary Net Position as a Percentage of Total Pension Liability	76.70 %
Net Pension Liability as a Percentage of Covered Payroll	N/A

Development of the Single Discount Rate

Single Discount Rate	7.00 %
Long-Term Expected Rate of Investment Return	7.00 %
Long-Term Municipal Bond Rate*	3.06 %
Last year ending September 30 in the 2017 to 2116 projection period for which projected benefit payments are fully funded	2116

Total Pension Expense \$ 74,143

Deferred Outflows and Deferred Inflows of Resources by Source to be recognized in Future Pension Expenses

	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>
Difference between expected and actual experience	\$ -	\$ -
Changes in assumptions	-	-
Net difference between projected and actual earnings on pension plan investments	108,651	34,868
Total	\$ 108,651	\$ 34,868

***Source: "20-Bond GO Index" is the Bond Buyer Index, general obligation, 20 years to maturity, mixed quality. In describing this index, the Bond Buyer notes that the bonds' average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp.'s AA. The rate shown is as of September 29, 2016, the most recent date available on or before the measurement date.*

C. Net Pension Liability	<u>\$ 464,248</u>	<u>\$ 540,721</u>	<u>\$ 233,174</u>
D. Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	76.70%	72.19%	86.19%
E. Covered Payroll*	N/A	N/A	N/A
F. Net Pension Liability as a Percentage			

* The Plan is not pay based, as the members are volunteer firefighters.

NOTES TO NET PENSION LIABILITY
GASB Statement No. 68

Valuation Date: October 1, 2015
Measurement Date: September 30, 2016

Methods and Assumptions Used to Determine Net Pension Liability:

Actuarial Cost Method	Entry Age Normal
Salary Increases	N/A
Investment Rate of Return	7.00%
Retirement Age	One half year after the valuation date at which the member is first eligible for normal retirement.
Mortality	RP-2000 Combined Healthy Participant Mortality Table for males and females, plus a five-year age setforward for impaired mortality, with mortality improvement projected to all future years after 2000 using Scale AA.

Other Information:

Notes See Discussion of Valuation Results in the October 1, 2015 Actuarial Valuation Report dated June 2, 2016.

PENSION EXPENSE
FISCAL YEAR ENDED SEPTEMBER 30, 2017

SCHEDULE OF CONTRIBUTIONS
GASB Statement No. 68

FY Ending September 30,	Actuarially Determined Contribution	Actual Contribution**	Contribution Deficiency (Excess)**	Covered Payroll*	Actual Contribution as a % of Covered Payroll*
2014	\$ 79,117	\$ 85,547	\$ (6,430)	N/A	N/A
2015	80,349	85,547	(5,198)	N/A	N/A
2016	78,859	85,547	(6,688)	N/A	N/A
2017	TBD	TBD	TBD	TBD	TBD

* The Plan is not pay based, as the members are volunteer firefighters.

** Includes State contributions up to the base amount of \$85,547 for fiscal years ending September 30, 2014 through September 30, 2016. State contributions in excess of the base amount are held in reserve and do not apply as a credit towards the contribution requirement.

NOTES TO SCHEDULE OF CONTRIBUTIONS
GASB Statement No. 68

Valuation Date: October 1, 2015
Notes Actuarially determined contributions are calculated as of October 1, which is one year prior to the end of the fiscal year in which contributions are reported.

Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Dollar, Closed
Remaining Amortization Period	19 years
Asset Valuation Method	5-year smoothed market
Salary Increases	N/A
Investment Rate of Return	7.00%
Retirement Age	One half year after the valuation date at which the member is first eligible for normal retirement.
Mortality	RP-2000 Combined Healthy Participant Mortality Table for males and females, plus a five-year age setforward for impaired mortality, with mortality improvement projected to all future years after 2000 using Scale AA.

Other Information:

Notes See Discussion of Valuation Results in the October 1, 2015 Actuarial Valuation Report dated June 2, 2016.

**SENSITIVITY OF NET PENSION LIABILITY
TO THE SINGLE DISCOUNT RATE ASSUMPTION
GASB Statement No. 68**

A single discount rate of 7.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.00%) was applied to all periods of projected benefit payments to determine the total pension liability.

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan’s net pension liability, calculated using a single discount rate of 7.00%, as well as what the plan’s net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

Sensitivity of the Net Pension Liability to the Single Discount Rate Assumption

1% Decrease 6.00%	Current Single Discount Rate Assumption 7.00%	1% Increase 8.00%
\$621,396	\$464,248	\$333,157
